Nº PATENTE	SOLICITANTE	PAÍS	TÍTULO
CN20091099343	UNIV NINGBO	China	Gene chip useful for detecting pathogen in aquaculture comprises chemically added solid phase carrier distributed with detection probes and quality control probes in lattice manner.
CN20091093779	UNIV CHINESE AGRICULTURIAL	China	New Bifidobacterium sp. BB2 of preservation number is CGMCC No. 3200, useful for poultry, livestock and aquiculture for replacing antibiotics, eliminating medicine residue, and improving quality of animal products.
WO2010042510	ABBOTT LAB	Estados Unidos	New isolated nucleotide acid or its fragment comprising or complementary to nucleotide sequence encoding polypeptide or comprising or complementary to specific nucleotide sequence from specific sequences used to produce delta 8-desaturases.
WO2010056513	SEQUENOM INC	Estados Unidos	Determining nucleic acids in composition involves extending oligonucleotides with distinguishable labels and capture agent that specifically hybridize to nucleic acid amplicons; capturing oligonucleotides to solid phase; and detecting label.
WO2010035465	NIPPON SUISAN KAISHA LTD NAGASAKI PREFECTURAL GOVERNMENT UNIV TOKYO MARINE SCI & TECHNOLOGY	Japón	New antituna vasa antibody or its fragment capable of specifically binding with tuna vasa gene product, useful for detecting tuna origin reproductive cell e.g. oogonium transplanted to different species recipient fish.
WO2010030600	CODE NUTRITION LLC	Estados Unidos	Determining personalized dietary supplement regimen involves genotyping sample for presence of genetic marker linked to gene associated with trait selected from e.g. cholesterol management, and identifying dietary supplements.
JP2010124797	DOKURITSU GYOSEI HOJIN RIKAGAKU KENKYUSH KANAGAWA KEN PREFECTURE UNIV NIPPON IKA UNIV TOKYO	Japón	New oligonucleotide, useful for detecting Edwardsiella disease in a flatfish (Paralichthys olivaceus).
CN20091213685	SOUTH CHINA SEA FISHERIES RES INST CHINE	China	New gene sequence of cobia immunoglobulin kappa chain, useful for studying function of fish immunoglobulin in humoral immunity and further studying development mechanism of fish immunoglobulin.
