

Nº PATENTE	SOLICITANTE	PAÍS	TÍTULO
US2011135720A1	SEABROOK S G STOCKUM G	Estados Unidos	Composition to inhibit colonization of surface of object by organism comprises base such as oil based paint, and microcapsules dispersed in base material and encapsulate phytochemical-based composition to inhibit colonization of bioorganism.
RU97156U	AQUA TECHNOPARK LLC	Rusia	Ultrasonic device used in fish-farming and swimming pools has water evacuation system for cleaning particles of mud eroded from internal surfaces of fish-farming and swimming pools.
WO2011059336A1	KYSTVAGEN SLIP&MEK AS	Noruega	Barge device for cleaning floating and/or submerged annular structures such as net rings for fish farming, has transport drum that is arranged transversely to barge and has rinsing unit that is provided in stern area of barge.
DE202010016888U	KRUEGER T	Alemania	Self-cleaning device for removing buoyant and floating solids from flowing fluid in fish farm, has common rotating shaft arranged in water body so that drive paddle wheel is driven in undershot manner and sieve body operates under water.
ES1074170U	SILVA ALONSO P	España	Drive mechanism for shellfish harvesting rods for use in scallop fishery, has base plate attached to fishing vessel, where rod is fixed to base plate, and rod is driven by hydraulic motor or pneumatic lever.
US2011114029A1	CHU C	Taiwan	Aquatic-animal e.g. shrimps, counting system, has operation processing device connected to photographing device, and image processing module utilizing operation rule to analyze image to calculate number of aquatic animals in image.
WO2011045323A1	TETRA GMBH	Alemania	Gel- or powder-forming agent for clarifying holding water, consists of phosphate-containing components or silicate-containing components such as sodium hypophosphite, disodium hydrogen hypophosphite, sodium silicate and polysilicic acid.
EP2282056A1	LIN H LIN H F	Taiwan	Wind-powered energy saving system for supplying air and maintaining temperature in fishpond, has air compressor connected to fan device, and multiple tempering panels mounted on linking tube at intervals.
US2011123643A1	BIERSTEKER R A CYRA R F LUVATA APPLETON LLC MICHALEWSKI C J STEVENS J J	Estados Unidos	Welded wire mesh of a silicon bronze alloy used in enclosure e.g. lobster trap, crab trap, crayfish trap, shrimp cage, oyster cage, and clam tray comprises silicon and copper.
WO2011068415A2	EWOS INNOVATION AS	Noruega	Masking odor of a fish semiochemical in water comprises adding extract or compound to the water or administering extract or compound to a fish in the water.
ES2355360A1	UNIV SANTIAGO COMPOSTELA	España	Coating for protecting fishery products and aquaculture products during storage, comprises water-soluble edible liquid containing protein, preferably whey protein concentrate powder.
